

# Enlightenment Award

## Nomination Form

---

As one of its core purposes, the Ohio Psychiatric Physicians Foundation (OPPF) encourages and sponsors programs to increase awareness and knowledge of mental disorders and effective treatments available today. This may include efforts aimed at employers, the media, persons with a mental disorder and their families, to encourage a better understanding of the disorders and their treatment. The Foundation may also support efforts to remove barriers to access to psychiatric care.

Related to this purpose, annually, the OPPF Enlightenment Award recognizes outstanding activity or presentations which enhances the public's access to treatment, enhances the public's understanding of mental disorders and/or decreases the stigma often associated with mental illness.
