Transitioning to *DSM-5 & ICD-10-CM* for Mental and Behavioral Disorders

Tuesday, May 12 — Dayton

Elizabeth Place, East Medical Plaza, 6th Floor Auditorium
627 S. Edwin C. Moses Blvd., Dayton, OH 45417

Who Should Attend

This workshop is designed for Psychiatrists and other Physicians who treat individuals with mental health disorders. Psychologists, Advanced Practice Nurses, Social Workers, Clinical Counselors, Marriage and Family Therapists, Case Managers, Billing Personnel and all others who need to know about the Diagnostic and Statistical Manual of Mental Disorders - Fifth Edition and the International Classification of Diseases, 10th Edition, Classification of Mental and Behavioral Disorders, will also find it beneficial.

Why You Need to Attend

Beginning Oct. 1, 2015, all entities, including health care providers, covered by the Health Insurance Accountability Act (HIPAA) must convert to using the ICD-10-CM diagnosis codes for billing and reimbursement purposes. The mandate represents a fundamental shift for many psychiatrists and other mental health professionals who are far more attuned to the Diagnosis and Statistical Manual of Mental Disorders (DSM), which also underwent a major overhaul with the fifth edition, released in May 2013. And, while there is a "crosswalk" from DSM-5 to ICD-10 codes, there's a great deal more that must be understood by both clinicians and billing personnel to ensure accurate coding for both diagnostic as well as billing and reimbursement purposes.

Speakers

Ryan P. Peirson, MD, is an Assistant Professor of Psychiatry and the Director of the Division of Community Psychiatry and the Chief of Forensic Psychiatry at Wright State University. In addition to his academic and clinical duties, Dr. Peirson serves as the Chief Clinical Officer for the Alcohol, Drug Addiction, and Mental Health Services Board for Montgomery County. Prior to his appointment at Wright State, Dr. Peirson was the Assistant Chief Clinical Officer and Director of Forensic Services for Summit Behavioral Healthcare where he was awarded for his teaching as part of the University of Cincinnati Forensic Psychiatry Fellowship program. A graduate of the University of Washington School of Medicine, Dr. Peirson received his training in general psychiatry at the University of Vermont and was a Charles E. Steinberg Fellow in Psychiatry and the Law at the University of Rochester.

Diane Zucker, M Ed, CCS-P, is a health care management and reimbursement consultant who has spent the last 28 years as a consultant providing physicians and practices with educational programs, support and ongoing information on the complex maze of documentation, coding and compliance. Ms. Zucker has a Master's degree in Education and a Bachelor's degree in social work from Kent State University with additional coursework in health care management and reimbursement. Prior to consulting, Ms. Zucker worked in health care as a social worker and for a major health insurance company. Ms. Zucker is also a certified CPT coder and ICD-10-CM trainer.

Continuing Medical Education Credit

PHYSICIANS

This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education through the joint providership of the American Psychiatric Association (APA) and OPPIA. The APA is accredited by the ACCME to provide continuing medical education for physicians."

The American Psychiatric Association designates this live activity for a maximum of 7 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

AGENDA

8 - 8:30 a.m.—Registration

8:30 a.m. - 12:15 p.m. (with 15 min. break): **DSM-5**

- ◆ Explore the general themes of the DSM changes (from DSM-IV to DSM-5) and how they relate to the growing body of evidence from mental health research;
- ◆ Explain the specific changes occurring in the DSM-5 regarding particular diagnoses and diagnostic criteria;
- ◆ Discuss some of the practical ways that the new DSM will change mental health practice and how mental health issues are conceptualized and addressed; and
- ◆ Practice selecting appropriate DSM-5 code(s) based on case examples.

Please be sure to bring the ICD-10-CM book and the DSM-5 book with you! They will not be sold or available on site!

12:15 - 1 p.m.: Lunch (provided)

1 - 4:45 p.m. (with 15 min. break): **ICD-10-CM**

At the conclusion of this part of the workshop, participants should be able to:

- ◆ Explain the process for selecting the appropriate, corresponding ICD-10-CM code for billing and reimbursement by payors;
- ◆ Identify the rules specifically for psychiatry, the key rules within the guidelines section of the ICD-10-CM process;
- ◆ Explain, within the documentation, the elements of the note that would lead to specific ICD-10-CM coding based on timing, status and quality of the condition;
- ◆ Describe and understand the rank order process for psychiatry diagnoses as well as secondary medical diagnoses that may be required to identify the care of the patient by using the index and relevant codes throughout the text; and
- ◆ Provide examples of documentation that may require the coder to "query the physician" for additional information for accurate coding.

Continuing Education Credit

COUNSELORS, SOCIAL WORKERS & MFTs

The Counselor, Social Worker & Marriage and Family therapist Board has approved this program for 7 clock hours of credit for Counselor CPE, Social Worker COE and Marriage & Family Therapist.
